

Datasheet

Thread Gauge with Lockable Blade

RS Stock number [387-0183](#)

Features:

Narrow designed blades permit use for internal & external screw threads.
Locking device at each end to secure all blades for storage or position the individual blade for use.
Correct pitch is determined by matching blade teeth with threads.
Each blade is available in wide range of sizes and blade combinations.
Blades protected in sturdy steel case.
All Imperial Threads unified 60° and all Metric Threads are 60°.

Pitch Range:

Imperial: 4, 6, 8, 10, 11, 11-1/2, 12, 13, 16, 20, 28, 32, 40, 56 t.p.i.

Metric: 0.50, 0.75, 1.00, 1.23, 1.50, 1.75, 2.00, 2.50, 3.00, 3.50, 4.00, 4.50, 5.00, 6.00 mm

Specifications:

Largest Imperial Measure:	56 t.p.i.
Largest Metric Measure:	6 mm
Number of Blades:	28
Smallest Imperial Measure:	4 t.p.i.
Smallest Metric Measure:	0.5 mm
Thread Type:	Imperial / Metric
