ThermoPro
TP63C LCD Digital Hygrometer
Indoor / Outdoor
Temperature and Humidity Monitor
(60m / 200ft Range)

SKU: THEPROTP63CWH
Manufacture warranty period: 12 months
Country of Origin: China

Description:
Equipped with professional grade rechargeable sensors, ThermoPro TP63A inside outside thermometer wireless provides accurate in / outdoor temperature and humidity readings every 50 seconds up to 200ft/60m away, allowing you to be aware if adjustments are necessary for your household! No matter the situation, the wireless thermometer hygrometer with a backlight and touchable screen tells you what you need to know, at-a-glance, all in an attractive, compact digital display.

Features:
- LCD screen with large digits displays the current indoor-outdoor temperature and humidity percentages.
- Wireless indoor outdoor thermometer hygrometer transmits readings up to 200ft/60m using a 433MHz strong signal.
- Rechargeable lithium battery technology resists cold weather as low as -31°F (-35°C), assuring transmission in any harsh environment.
- Completely sealed outdoor sensor for reliable use in rain or snow.
- Sync up to 3 outdoor remote sensors to monitor different locations (additional 2 sensors sold separately).

Wirelessly Track Multiple Locations
Temperature and humidity gauge displays readings from up to 3 outdoor remote sensors that can as far as 200ft/60m away from the base station. With the long range, feel free to position your sensors anywhere that best suits your needs. (Additional sensors are available for purchase)

Quick Response and Accuracy Measurements

Monitor the current indoor humidity & temperature with accuracy to within ±1°C and ±2~3%RH combined with a lightning quick response time, which takes measurements every 30 seconds to provide you the most up to date and accurate readings available.

Multiple Placement Options

Indoor hygrometer features built-in tabletop stand and wall-mount to allow you to place your indoor thermometer wherever is most convenient for you and your home.

Package includes:

- 1 x base station unit (Receiver)
- 1 x remote sensor (Transmitter)
- 1 x Charging Cable
- 2 x AAA battery
- 1 x User Manual

Specifications:

- 868 MHz transmission frequency
- Transmission Range: Up to 60m / 200 ft. (range maybe shorter based on interference present)
- Temperature Range: -20°C~70°C (-4°F~158°F)
  - Indoor: -20°C~70°C (-4°F~158°F)
  - Outdoor: -35℃ ~ 70℃ (-4°Fto 158°F)
- Humidity range: 10%~99%RH
- Resolution:
  - Temperature: 0.1 ºC (0.1º F)
  - Humidity: 1%RH
- Accuracy:
  - Temperature: ± 1.1ºC (2.0ºF)
  - Humidity: ±2% from 30%RH to 80%RH; ±3% below 30%RH and above 80%RH
- Refresh rate: 10 seconds
- Operation temperature: +10~60ºC
- Storage condition: -20ºC~60ºC, 20~80%RH
- Base station (Receiver):
  - Power supply: 1.5V (AAA size) X 2
  - Dimension: 84 x 71 x 26mm
  - Weight: approx. 112g (included batteries)
- Remote sensor (Transmitter):
  - Dimension: 63 x 74 x 26mm
  - 84ight: approx. 73g (included batteries)
  - Rechargeable Lithium battery technology resists cold weather as low as -35℃, assuring transmission in any harsh environment.

Wireless Indoor Outdoor Thermometer Temperature and Humidity Gauge Features:

1. The bold, easy to read LCD screen displays the current indoor / outdoor temperature and humidity percentages.
2. Temperature and humidity percentage trend indicator arrows and daily high, low information.
3. Display has a built-in tabletop stand and wall mount.
4. Includes all-time / 24 hours high and low records for temperature and humidity.
5. Reset the stored temperature and humidity

NOTE – Synchronize Remote Sensors

- Position the remote sensor near the base station
- Install batteries into transmitter and receiver
- The RF signal icon (located on the upper left of the base station display) will flash
- Wait for a moment or press TX button in the outdoor transmitter
- The remote sensor temperature/humidity will appear
- Each time the batteries (either base station or remote sensor) are replaced or base station/remote sensor lost connection, make sure to follow the synchronization process to pair and re-connect the base station and remote senor

MAX 200FT / 60M
Wireless Remote Sensor

Product contains only 1 sensor, more sensors can be ordered separately.
