RS PRO Warning Signs

RS Stock No.: 857-8719

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The purpose of the ISO 7010 Standard is to have an internationally-recognised range of signage shapes, colours and pictograms to enhance safety amongst increasing numbers of non-native speaking workers for whom text-based safety instructions are not sufficient.

The ISO 7010 Standard applies to all safety signs and symbols in work environments and other places where people need to be made aware of safety issues. This includes everything from emergency exit signs to mandatory, prohibition or hazard warning signs.
