

BWC111 – OMG Affordable Removable Battery Body Worn Camera

BWC111 – OMG Removable Battery Body Camera

Main feature

- 1296p/30fps full HD video camera, which can be expanded to 720p/60fps-the motion picture is smoother;
- Photographed with 36 million pixels;
- Support super large capacity: maximum support 256GB;
- 140°wide-angle lens, no more on-site details will be missed;
- Dual filter switch: no color cast during the day and clearer at night;
- Super night vision function: the outline of the human body can be seen clearly at 10 meters in total darkness;
- Strobe warning light: the warning effect is more obvious and direct;
- Character superposition function: All videos and photos are attached with time, product number, user number and other information, Unable to edit, it has the effect of legal evidence;
- Long file name: The file name of all video files includes product number, time, user number, etc. Information, convenient for data archiving and retrieval;
- Strong waterproof function, normal use under heavy rain and heavy rain;

- Built-in high-quality OSRAM low-power infrared LED, can be used continuously for a long time, far and near angle design: guaranteed
- Prove the perspective and ensure the distance;
- It has the three functions of camera, photo and audio recording;
 - Automatically split and save the video data: prevent data loss caused by mis-operation;
 - 2-inch LCD screen, wider viewing angle, more detailed playback;
 - Replaceable battery design, super long and durable;
 - The easy-to-use base simplifies the operation of police officers. After being inserted into the base, it will automatically turn on, import and charge;
 - Industrial grade plastic and structural design, the bare machine can withstand a free drop of 2.5 meters, and the body and data will not be damaged;

Specification

Display	2.0 inch full HD LCD display
Camera	F 2.0 aperture, high resolution multilayer filter wide angle lens
Video frame Rate	30 frames/sec 60 frames/sec
Video Compression Format	H.264
Video Resolution	2304×1296 p30, 1920×1080 P30, 1280×720 P60, P30 1280×720
Photo Format	JPEG
Photo Pixels	36M (8000*4500)、24M (6528*36 72), 16M (5376*3024) 12M (4608*2592)
Storage Capacity	support 16GB, 32GB, 64GB, 128GB, 256GB
Dimensions	About 56 MMx77MMx32MM
Weight	125g + 15g (Host+ back clip)
Battery Capacity	1500MAH 1 x replaceable batteries
Continuous Power Supply Time	A single battery greater than 8 H
Full Charge Time	≤4 H
Auxiliary light Source	Infrared lights, bright white lights, flash alarm lights
Night Vision Distance	10 m
Working Ambient Temperature	-10~+45°C (ambient temperature can not exceed 45°C in case of filling and recording)

Working Relative Humidity	≤93%
Storage temperature	-40~60°C
Protection level	IP 66
Drop Resistance	2.5m
Messenger Function	Compatible with analog digital walkie-talkies (optional features to be customized)
