

# Utility Cart

## UTC400

### Description

- Seamless one-piece molded leak-proof polyethylene body with bi-folding lids-in-lid, supported by tubular steel chassis. Made from recyclable material.
- Sturdy, plastic smooth surface construction will not rust, dent, chip, or peel and is easy to clean and resistance to corrosion.
- Maintenance-free, large tubeless 20" (500 mm) solid rubber front wheels (02) transport loads with ease. Roll smoothly over thresholds and rough surfaces. Easy to handle through doorways and onto service elevators.
- Durable 6" (150 mm) rear swivel castor wheels (02) c/w brakes provide easy maneuvering & safety.
- Balance designed for controlled dumping by One-Man-Operation (OMO). Excellent economical choice for bulk collection.

### Application

UTC400 is used for transporting many different materials from waste, recyclable to laundry. These utility carts are an industry workhorse. Designed for general refuse collection and light to medium materials handling. Strong and dependable. The obvious choice for warehouse and manufacturing facilities.

Model	Width (mm)	Depth (mm)	Height (mm)	Capacity (Litres)	Approx. Weight (kg)
