## RS Pro Plain Ceramic Hex M6 x 20mm Set Screw

RS Stock No: **223-7260**

### Product Details

RS Pro set screw measuring M6 x 20 mm, is made of ceramic with plain finish. This hexagon head screw is similar to the hex bolt, although the main difference is that the set screw is fully threaded. The set screw is an excellent alternative to the screws made from steel. This metric threaded set screw offers greater strength than equivalent PTFE or nylon screws. This fastener is a preferred choice for use in high temperatures, electrical insulation, acidic environments, non-magnetic applications, corrosive/chemical environments, wet environments such as bathrooms, machinery and construction applications and plating operations. This set screw meets DIN 933 standards.

### Features and Benefits

- Can withstand high temperatures
- Are inert and practically immune to corrosion
- Available in various thread sizes
- Suitable for use where there is limited space

**Specifications:**

Drive Type	Hex
Finish	Plain
Head Shape	Hex
Material	Ceramic
Length	20 mm
Thread Size	M6
Head Height	4 mm
Specification	DIN 933
Width Across Corners	11.05 mm
Width Across Flats	10 mm
