

FEATURES

- For use with a TO-220 transistor
- Thickness of 0.009in (0.230mm)
- Thermal resistance of 2.5 °C/watt (or higher) on a TO-220 mounted at 50 psi
- Dark pink colour
- Stand voltage of 4500VAC
- Silicone rubber insulating heat sink washers
- The need for heat sink compound (as used, for example, with mica washers) is eliminated

Heatsink Transistor Mount Kit for use with TO-220

RS Stock No.: 712-8225

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This RS PRO heatsink transistor mount kit helps you attach heatsinks to their components. Heatsinks are metallic parts that release energy in the form of heat, to prevent technology such as mobile phones, refrigerators or computers from getting too hot.

General Specifications

Accessory Type	Transistor Mount Kit
For Use With	TO-220
Applications	Mobile phones, refrigerators or computers

Electrical Specifications

Breakdown Voltage	4500V
--------------------------	-------

Property	
Colour	Dark pink
Thickness	0.23mm (0.009in)
Thermal Resistance	2.5 °C/watt (or higher)
