

Harmonisation Kit

ENGLISH

Heatshrink Harmonisation Kit

The Harmonisation Kit is especially suited to industrial electricians who are working with the original cable identification colours. It offers a number of high quality Mil spec heatshrink sleeves in the new IEC colours so that your old cables can be harmonised with the sleeves to identify that the work has been carried out correctly to the New IEC colour standard. Dimensions: 312x238x51mm.
