

FEATURES

- 100% moulded polyurethane
- Black foot colour
- Easy "peel off" application
- Shock dampening
- Superior abrasion resistance

RS PRO Square Anti-Vibration Mount 0 Compression Load 12.7mm dia. PUR

RS Stock No.: 173-5947

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO square anti-vibration mount has a diameter of 12.7mm and is made from PUR material. It has square, flat-topped bumper pads with a tapered profile that provides the largest surface contact area in the range. It has an adhesive backing with a quick peel lining. Rubber anti vibration mount is a crucial component in most of the heavy machinery and equipment that help dampen noise levels and vibration frequency while safeguarding fragile components from external vibrations.

General Specifications

Material	PUR
Shore Hardness	60 — 70
Foot Colour	Black
Pieces per sheet/Layout	100
Elongation, %	192
Applications	Cabinet doors, Cupboard, Drawers, Small electronics devices, Small house hold appliances

Mechanical Specifications

Diameter	12.7mm
Overall Height	5.8mm
Tensile Strength	4MPa

Operation Environment Specifications

Maximum Operating Temperature	+65.6°C
Minimum Operating Temperature	-40°C
