## RS PRO Plier Crimping Tool for Ferrule

RS Stock No.: 425-8865

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

### Product Description

From RS PRO a durable, reliable and easy to use hand operated crimping tool made from high-quality materials designed to crimp bootlace ferrules. This hand tool consists of two handles with a non-slip ergonomic design for comfortable use, a ratchet mechanism, and a die assembly. The die assembly has just one cavity that is used for the whole of the wire cross section range. The wire end ferrules are fed into the side of the tool and a trapezoidal crimp is produced.
