

FEATURES

- White silicone rubber sheet
- Elongation of 450%
- Suitable for use with hot and cold water
- Minimum operating temperature of -40°C
- Maximum operating temperature of +200°C
- Length of 600mm
- Width of 600mm
- Thickness of 3mm
- Density of 1.25g/cm³

RS PRO White Rubber Sponge Sheet, 600m x 600mm x 3mm

RS Stock No.: 506-3315

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

These silicone rubber sheets from the RS PRO range can stretch up to four and a half times their original length. They're ideal for applications where an easy-to-mould rubber and a tight seal are essential.

These rubber sheets are suitable for use in a wide range of temperatures, from -40°C to +200°C. They're highly flexible and return to their original shape after compression, so they're extremely versatile. With their high resistance to oxidation, UV light and radiation, they're durable and long-lasting in a variety of environmental conditions. Part of the RS PRO range, these rubber sheets have been thoroughly tested to ensure they're resilient, durable and reliable.

General Specifications

Colour	White
Adhesive Backing	Yes
Suitability	Cold Water, Hot Water
Application	Gaskets and watertight seals and are excellent for soundproofing, heating technologies, electronics and catering, easy-to-mould rubber and a tight seal

Mechanical Specifications

Length	600mm
Thickness	3mm
Width	600mm
Density	1.25g/cm ³
Elongation	450% Minimum
Hardness	60°+/-7
Tensile Strength	5.5MPa Minimum
Tear Strength	5kg/cm
Abrasive Strength	100mm ³
Gravity	1.3

Operation Environment Specifications

Maximum Operating Temperature	+200°C
Minimum Operating Temperature	-40°C
