

## FEATURES

- Various thread sizes available, including M3, M4, M5, M6 and M8
- Manufactured from stainless steel
- Cost effective

## Stainless Steel Hex Socket Set M6 x 8mm Grub Screw

RS Stock No.: 187-0793

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

RS PRO range of hexagon grub screws features excellent capabilities within machine repair and fixing applications. Grub screws have no head (also known as headless or blind) and it is simply a threaded fastener to secure an object within another. They are generally used in tight areas where you do not want the head sticking out, or a little bit countersunk from the top of the material so nothing can hit it and interfere with the operation of the application. You tighten or undo them, using an Allen key or a hex key

## General Specifications

<b>Thread Size</b>	M6
<b>Material</b>	Stainless Steel
