

FEATURES

- Long service life due to speed-optimised carbide tip
- Force is transmitted directly to the drill point
- Force is transmitted directly to the drill point
- Hammer capability
- High drilling stability

RS PRO Carbide Tipped SDS Drill Bit, 25mm x 450mm

RS Stock No.: 562-400

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

This SDS+ Drill Bit from our own RS PRO brand features carbide cutting edges for sharp and accurate cutting into masonry. A centre tip for a precise drilling start and good guidance while drilling. The blackened finish adds heat treatment to reduce friction between the drill bit and workpiece. Spiralling flutes allows for smooth and efficient drilling. For use with drills with SDS+ fitting shank for a safe and secure fit.
