

FEATURES

- Non-releasable ladder type
- Excellent resistance to corrosion, radiation and abrasion
- Specially designed for industrial applications in aggressive environment
- Flame retardant
- Self-locking design for quick and secure installation

RS PRO Black Polyester Coated Stainless Steel Ladder Cable Tie, 300mm x 7 mm

RS Stock No.: 121-668

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

These RS PRO ladder type cable ties have been manufactured from grade 316 stainless steel. The construction of these metal cable ties gives them greater flexibility in comparison to a standard stainless steel cable tie. The unique design and structure of ladder cable ties make them ideal for applications which need extreme strengths. These ties are an ideal alternative where Nylon 66 cable ties are not suitable such as harsh environments or places where there is heat. The stainless steel used has a high resistance to damage by chemicals and salts making them suitable for harsh environments. The black polyester coating improves the handling properties of the stainless steel reducing the possibility

General Specifications

Type	Ladder
Colour	Black
Material	Polyester Coated Stainless Steel
Application	Bundling wire together ,heavy-duty applications in industries such as: Oil and gas,Marine,Chemical,Maintenance
Resistant To	Corrosion, radiation and abrasion.
Minimum Operating Temperature	-80°C
Maximum Operating Temperature	150°C
Fire Behaviour	Flame Retardant, Halogen Free
Quantity	100

Mechanical Specifications

Length	300mm
Width	7mm
Tensile Strength	436.1N

Approvals

Standards Met	ABS, DNV, Lloyd's Register, IEC 62275, UL-1565
