RS PRO Matte Black Plastic Drawer Handle, 112mm

RS Stock No.: 456-589

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From RS Pro a pair of high-quality thermoplastic drawer handles also known as 'pull handles' or 'bridge handles'. These drawer handles are made from robust matte black reinforced glass filled nylon and have a hollowed centre profile. The handles feature a moulded, threaded bore with a 5.3 mm diameter. M6 hexagonal bolts are inserted from above into the threaded bore to provide a secure fitting to the drawer or door. The pre-threaded bores also make these drawer handles simple to install. Black cover caps are supplied with the handles to conceal the fixing heads for a neat finish
