

FEATURES

- Robust, thick-walled design
- Closed barrel ensures crimp terminal fits securely around the cable
- Copper body material provides high
- Conductivity and is easy to crimp
- Tin plating on crimp terminal provides resistance to corrosion
- Funnel-shaped internal barrel for easy wire insertion

RS PRO Uninsulated Tubular Ring Terminal, M6 Stud Size to 10mm² Wire Size

RS Stock No.: 531-021

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From RS PRO a high-quality heavy-duty tubular crimp ring terminal, also known as a ring connector or cable lug. Heavy duty ring crimp terminals are used for connecting multi-stranded cables to a stud or a post on an electrical component such as a battery terminal. This tubular ring terminal is made from thick-walled, heavy-duty, highly conductive copper and is tin plated. Once correctly crimped onto a cable this ring terminal will provide a secure and reliable electrical connection..

General Specifications

Insulation	Uninsulated
Contact Material	Copper
Contact Plating	Tin
Stud Size	M6
Application	Crimp ring wire connectors are used in a wide range of industries for connecting multi-stranded power cables to electrical components in more heavy duty applications. Applications include cabling and wiring in industrial control systems and industrial machines, automotive applications, communication equipment, power supplies and domestic appliances.

Mechanical Specifications

Overall Length	30mm
Inner Ring Diameter	6.4mm
Maximum Wire Size	10mm ²

Operation Environment Specifications

Maximum Operating Temperature	150°C
--------------------------------------	-------

Approvals

Compliance/Certifications

BS 2871, BS 4579 Part 1, BS 1872 Part 2 2011/65/EU and 2015/863
