

## FEATURES

- Black tapered levers
- Shafts made from zinc-plated steel
- Handles made from phenolic plastic
- Abrasion, corrosion, and heat resistant
- Male M8 thread
- Insert length of 12 mm
- Length of 92 mm
- RoHS compliant

## RS PRO Zinc Plated Steel Tapered Handle, M8 x 12mm

RS Stock No.: 702-7563

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

### Product Description

These tapered levers from our trusted RS PRO series are comfortable to grip, enabling you to manipulate objects safely and easily. Offering high resistance to corrosion and heat, they're ideally suitable for use with cooking equipment and in other demanding settings. Solidly built, these handles are manufactured from high-quality materials. The shafts are constructed from zinc-plated steel for strength and robustness, while the handles are phenolic plastic, a material that's exceptionally heat resistant and protects from oils and greases. They're 92 mm long, offering a safe and effective grip, and can be used safely at temperatures from -30°C to +140°C. You'll find they're ideal for use with cooking equipment or in other extreme temperature environments.

### General Specifications

<b>Lever Type</b>	Tapered Handle
<b>Thread Gender</b>	Male
<b>Thread Size</b>	M8
<b>Handle Material</b>	Phenolic
<b>Shaft Material</b>	Steel
<b>Insert Material</b>	Zinc Plated Steel
<b>Colour</b>	Black
<b>Applications</b>	Manufacturing and engineering environments, cooking equipment.

### Mechanical Specifications

<b>Thread/Insert Length</b>	12mm
<b>Length</b>	92mm

### Operation Environment Specifications

<b>Temperature Range</b>	-30°C to 140°C
