

## Bright Zinc Plated Mudguard Washers

### FEATURES

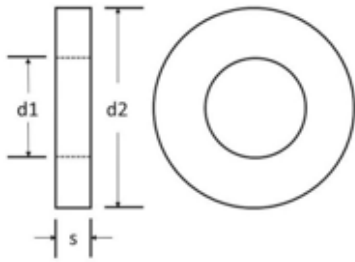

- Bright zinc plated, giving longer lasting protection
- Large outer diameter is ideal for over-sized holes
- Helps spread load out over a greater surface area
- Available in a range of inner and outer diameters
- 

### Product Description

Mudguard washers are typically used with threaded fasteners (such as nuts and bolts) and designed to help spread out tightening loads. Having an exaggerated outer diameter, they are ideal for over-sized holes, as well as spreading out the load over a wider surface area.
