

FEATURES

- Made from recycled polyethylene
- The polyethylene construction is also corrosion-free and hard-wearing
- UDL (Uniform Distributed Load Weight): 1250 kg
- Tare weight: 29 kg

RS PRO Spill Control Oil Drum Pallet

RS Stock No.:189-0054

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Introducing the range of RS PRO Spill Pallets, a high-quality solution to liquid storage and spill containment. This spill pallet has been rotationally moulded using recycled polyethylene, whilst offering space for 4 x 205-litre liquid drums. It has been designed with a removable plastic grid, allowing easy access to clean the sump of the pallet and additionally offers one-way forklift pockets to easily move the pallet, without using physical manpower. This corrosion-free and sturdy spill pallet is an ideal solution for managing spills and mildly hazardous substances and is versatile enough to use at home or in working and industrial environments.
