## RS PRO 13 Piece 1/2" 6-Point Deep Socket Set

RS Stock No.: 2490349

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

From RS PRO, this high-quality 13-piece socket set has been designed for professional use and manufactured from high-grade chrome finished vanadium steel. The pieces are finished in chrome and are designed to fit 1/2" square drives.

With its range of sockets, this kit is a compact and reliable asset to any professional toolkit. This set allows you to work comfortably whether it's tightening, loosening or just adjusting anything at home or on a job site.

The deep size of these sockets is handy for reaching sunken bolts.

The set is kept within a foam tool module for easy transportation and organisation. This foam insert is designed to fit neatly in the drawers of tool cabinets, such as the RS PRO Range of heavy duty tool cabinets.

### Kit Contains

- 1/2" 6-point deep sockets – 13 pieces
- Supplied in a foam module, compatible with RS PRO roller cabinets

### Features and Benefits

- Professional quality
- Chrome mirror finish for easy cleaning
- Offers high torque without damage to fasteners
- Increased durability

### Applications

This socket set is typically used by professional tradesmen & mechanics. They typically apply a smooth ratchet action that can apply a great deal of torque with little effort, which is ideal for tightening and unscrewing appropriately sized fasteners. Socket sets are an essential component of any complete tool sets, and can be used in many situations and professions where a socket is integral to carrying out a specific task, such as:

- Maintenance
- Construction
- Home DIY
- Mechanics/Car garages
