

# SUPABORD - STANDARD TEMPORARY FLOOR PROTECTION SPECIFICATION SHEET

## DESCRIPTION

SupaBord Standard is our medium duty temporary floor protection product for residential construction and renovation projects.

SupaBord Standard is the latest technology in floor protection that is light weight but provides a balance of vapour permeability, durability and strength. Developed to withstand the demands of residential renovations, SupaBord Standard has low impact resistance and robust against light wheeled traffic. With each roll conveniently sized at approximately 800mm wide x 33m long x 0.5mm thick, covering 26.5sqm, SupaBord Standard is flexible yet strong and made from 100% recycled material. SupaBord Standard is versatile as it can be scored and folded easily to protect surfaces, making it ideal for benchtops and stairs.

SupaBord Standard prevents the risk of damage and rework, saving money on material and labour costs and is the brand of choice by contractors worldwide.

## FEATURES

SPILL RESIST

QUICK FIT

BREATHABLE

MEDIUM DUTY

100% RECYCLED

CUT & FOLD

## INSTALLATION INSTRUCTIONS

1. Ensure the subfloor (base floor) is **clean and dry**
2. Remove plastic sleeve from the **SupaBord** roll
3. Roll out **SupaBord** over the flooring area or surface, logo side facing up
4. Cut **SupaBord** to length with a utility knife, ensuring the seams are neat and fit well together
5. Tape the **SupaBord** butt joints, long joints and perimeter with **SupaBord Joint Tape**. **Do not apply SupaBord Joint Tape to floor surfaces as it may affect some finishes**
6. Apply **SupaBord Edge Tape** to the outside perimeter of the flooring area

## AVAILABLE SIZE

**Colour:** Natural

**Roll Size:** Approximately 800mm wide x 33m long x 0.5mm thick, covers 26.5sqm

**Roll Weight:** Approximately 10kg (22.05lbs)

## HANDLING AND STORAGE

No special handling requirements. Keep away from flammable and combustible material. Paper products will not release hazardous chemicals under normal conditions of use.

## USES

SupaBord Standard provides ideal protection when painting, plastering or simply preventing mud, dirt and dust from being walked on to the floor. It provides excellent protection for counter tops, cabinets and stairs.

## SAFETY

Upon review of relevant OSHA regulations and the characteristics of paperboard, a MSDS is not required because paperboard falls within the exemptions for a 'manufactured article' and 'wood products'.

## DISCLAIMER

Reasonable care has been taken in preparation of this document. The information in this document was obtained from sources, which we believe reliable.
