

## Datasheet

### HSS 16 → 30.5mm Cone Cutter

RS Stock number 499-295

#### Application:

For drilling and reaming freely of burs of sheet steel, thin-walled tubes and structural steel shapes.

#### Specification:

- Surface treatment approx. 3.500 HV
- Layer Thickness up to 4 µm
- For hardest materials
- Optimized tool life
- Highest cutting speeds
- Temperature resistant up to 800° C, cooling not necessary
- Reduces cold weldings
