- Supplied in bags of 100

RS PRO Bright Zinc Plated Steel Pan Head Thread Forming Screw, N°4 x 6mm Long

RS Stock No.: 482-8054

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From our own RS PRO brand, these thread forming screw come in useful you need to attach two pieces of material together but only have access to one side of the material. Use them for jobs such as the disassembly and reassembly of furniture. Since the screw makes its own holes, all you need to do is create a small pilot hole in the material, position the screw over the hole and drill into place using an appropriate driver.
