

ENGLISH

Male/Male Cylindrical Bobbins

Cylindrical Bobbin mounts are simple and cost-effective vibration isolators that can be used in either compression and/or shear. Made from natural rubber and zinc plated mild steel.

Applications:

- Static generator engines
- Compressors
- Motors

H = Height
D = Diameter
G = Tread
L = Stud Length

| RS Part Number | Hardness (ShA) | D (mm) | H (mm) | G x L (mm) | Max Compression Load (kg) | Max Shear Load (kg) |
|----------------|----------------|--------|--------|------------|---------------------------|---------------------|
