RS PRO Rubber, Stainless Steel Hood Latch Assembly

RS Stock No.: 339-9151

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

From RS Pro, this hood latch assembly is ideal for medium to heavy duty applications, featuring a robust stainless steel catch plate. The latch component has a chloroprene rubber construction, with added antifreeze, making it ideal for harsh and outdoor environments. The latch component is also uniquely shaped to prevent rattling between a gate and frame. Combining ease of use with sturdy construction, this hood latch assembly is versatile and robust.
