Product Description

Introducing the range of RS PRO K Nuts, a high-quality fastener locking solution for connecting and tightening a bolt or screw in a wide range of applications to prevent it from loosening and locking it into place, and are predominantly used in aerospace or automotive racing industries. Each fastener is made from steel with a zinc coating, making them much more cost-effective than their stainless-steel counterparts, while still offering a high level of protection against surface rust and oxidation.

Applications:

- Household and DIY applications
- Building and construction
- Automotive, marine and aerospace
