Product Description

Moving objects quickly and safely is a breeze with this handy 75 mm swivel castor. It's easy to manoeuvre, boasts full 360° motion and can bear loads up to 70 kg.

This castor's pressed-steel construction and plain bore bearing give it a long operating life, while its robust polypropylene (PP) tyres offer added durability and resistance to shock. Its rectangular fixing plate is a fast and easy mounting option for greater stability when dealing with loads. Finally, the tyres won't mark hard floors and work exceptionally well on softer indoor surfaces.
