RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Introducing the range of RS PRO Work Gloves. These high-quality re-usable gloves are designed with a smooth PU coating to offer enhanced abrasion and tear resistance, making them stronger and more durable than standard work gloves and ideal for vehicle repair and maintenance and construction applications. In addition to this, the palm-coated design offers superior grip, even when working in oily, damp or warm environments, whilst still being breathable and flexible, especially for fine handling applications. This long-lasting and cost-effective washable safety glove is ideal for a wide variety of applications and is an essential part of safety and protective workwear.
