3.2cm round rungs		
3.8cm flat rungs		
4.4cm flat rungs		
4.1cm flat rungs		

Not for use on MT-00AZ Series

Shipping quantity
(1) unit per carton.

DUTY & LOAD RATINGS

Ladders manufactured to Australian and New Zealand Standards AS/NZS 1892 must clearly display a Duty Rating and a Load Rating.

These are clearly defined in AS/NZS 1892.1

– Portable Ladders, Metal.

· Section 1.6 - Definitions

· Section 2.2 - Ratings

LOAD RATING:

Load Rating is the maximum load including the weight of the user, materials and tools.

Domestic ladders shall have a Load Rate not less than 100kg.

Industrial ladders shall have a Load Rate not less than 120kg.

DUTY RATING:

The Duty Rating is assigned by the manufacturer based on the design capabilities of the ladder. There are 2 Duty Ratings - Domestic and Industrial.

DOMESTIC DUTY RATING

A ladder designed to be used by a householder for construction, maintenance and repairs carried out at a private dwelling for non-commercial purposes.

Domestic Duty Rated ladders must not be used on commercial or industrial sites.

INDUSTRIAL DUTY RATING

Any ladder other than a Domestic ladder

Industrial Duty Rated ladders are suitable for use on industrial and commercial work sites.

Industrial Duty Rated ladders can be used in domestic and industrial settings.

DUTY RATING	LOAD RATINGS		
DOMESTIC	100kg (min), 120kg, 170kg		
INDUSTRIAL	120kg (min)	135kg	150kg, 170kg, 200kg, 225kg
