## Introducing the new PW-291

This improved direct pipe-in, hot and cold water cooler from Pure Water Dispensers Pte Ltd is fitted with an in-built circuit breaker for added safety. Equipped with a double housing filtration system, it supplies a continuous source of clean and crisp water for your everyday use.

### Our double housing filtration system consists of the following:

- ✓ 1<sup>st</sup> Stage PP Sediment Filter
- ✓ 2<sup>nd</sup> Stage CTO Carbon Filter

### Optional Additions:

- ✓ Additional Filters (+S\$80)
- ✓ One time or bi-annual maintenance (contact staff for details)

### \*Free Installation and Delivery

\*Terms and conditions apply

\*Disclaimer: Product specification subject to change without prior notice

## PW-291

### Product Features:

- Stainless Steel Tank (Anti-Bacterial)
- In-built circuit breaker for added safety
- High heating and cooling efficiency
- High quality heavy-duty taps
- IECEE CB Certified
- Economical
