Product Description

RS PRO flame-retardant cable ties are a type of fastener used for holding items together, most commonly electrical cables or wires. These cable ties are made from Nylon 66 (also known as nylon 6.6) that is classified to UL 94V-0, making them ideal for use where fire resistance is critical. These ties are a one-piece, self-locking fastener that functions like straps to keep cables tidy. They are available in a range of sizes and lengths.
