# RS Pro Bi-Aspheric Eye Magnifiers

RS Stock No: 732-842

RS Pro high quality, high-power bi-aspheric eye glass magnifiers. Virtually unbreakable housing and shatter-resistant lenses coated with an anti-abrasive film. Bi-aspheric lenses offer outstanding light transmission up to 96%, minimise distortion and give a broad field of view.

The focal distance varies depending on the user as the magnifier is used close to the eye and you find your focus point as you move the image closer and further away.

The distance from the lens to the page as it sits flat is also 30 mill

## Dimensions

- Type: 15x
- Lens dia: 30 mm
