RS PRO LAN Test Equipment of Crossed, Open, Reversed, Shorted, Split Wires

RS Stock No.: 462-9267

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

A rugged, handheld and user friendly LAN tester, brought to you by RS PRO. Featuring a large LCD display, easy to use design and a protective carrying case this device is ideal for a number of applications. Able to detect faults, opens, shorts, miss-wires, crossed pairs, reversals and split pairs, it also features distance to fault location. One button puts the device in to test mode, and it can be used on cables between 1m and 350m for all of your testing needs.

General Specifications

Cable Type	FTP, UTP
Test Type	Crossed, Open, Reversed, Shorted, Split Wires
Maximum Cable Length	350m
Maximum Number of Cables	8
Connector	RJ45 and BNC
Display Type	LCD
Data Storage	99sets
Input Protection	The inputs withstand telephone ringing and loop voltages

Electrical Specifications

Power Source	Battery
Battery Type	9V
Battery Life	60h continues

Mechanical Specifications

Dimensions	150mm x 72mm x 35mm
Length	72mm
Width	150mm
Height	35mm
Weight	215g

Operation Environment Specifications

Maximum Operating Temperature	100°C
Minimum Operating Temperature	-55°C
Storage Temperature	-20°C to 60°C
