Stock No. 2217870

Yellow Expandable Barrier 3.5m Long X 1.1m Tall

Feature:

Plastic Barrier expandable up to 3.4m. Can be deployed rapidly and multiple barriers can be joined together using the interlocking end columns in order to cover long distances.

- Compact, Lightweight and Portable
- Sturdy plastic construction is durable and resistant to corrosion
- Castor wheels means easy movement with brakes
- Detachable legs and convenient carrying handle for easy transport

Physical Properties	Units	Value
Colour	-	Yellow and Black
Material	-	Linear low-density polyethylene
Hardness	ShD	43
Length (when closed)	mm	420
Length (when extended)	mm	3400
Height	mm	960
Tensile Strength	MPa	15
Abrasion Performance	mm ³ / 1.61km	210
Elongation at Break	%	500
Impact Elasticity	%	31
Maximum Temperature (°c)	°C	55

Minimum Temperature (°C)	°C	-25
