

Wiring Pencil with Brake

multicomp PRO

**RoHS
Compliant**

Description

The Wiring Pencil or wiring pen, is a prototype wiring tool and is crucial to prototype wiring, electronic construction and PCB or PWB circuit rework and repair. With its quality stainless steel tip, the wiring pencil or pen is an extremely versatile, flexible and robust utility hand tool and would be a practical addition to any toolbox, workbench or field toolkit. This Wiring Pencil or Wiring Pen with Brake is preloaded with a Solderable Enamel Wire Bobbin or wire spool. Based on the standard version, the wiring pencil has been enhanced and now incorporates a finger brake, which operates against the bobbin of wire or wire spool and accurately controls wire tension. A full, ready to use Tinned Copper Wire (TCW) bobbin of wire or wire spool is supplied with each pencil.

Applications

This wiring tool, is recommended for entry level to advanced students, technicians or hobbyists for the assembly and wiring of discrete electronic circuits; for end of line or Field Service PCB or PWB track repair, rework, shorting links or modifications.
