SECUMAX COMBI

NO. 109137

Original size

Safety first

The concealed blade protects you and your goods. The long, rounded nose guides you as you cut. All in all, cutting with the SECUMAX COMBI is a safe and precise event.

4-times usable blade

Increase the time of the blade by being sure to use all four sharp corners, one after another. In this way, you can minimize costs while ensuring your cutter performs consistently.

Ergonomic handle

Handle every job with ease! The ergonomically shaped handle of the SECUMAX COMBI helps you to work quickly and effectively.

Tool-less blade change

When the time comes, you can change your blade easily and safely. Manually loosen the screw holding the blade cover shut, open the cover and take out the blade. Rotate or replace to the blade, and continue cutting.

For packaging tape

The SECUMAX COMBI is a cutting tool with many excellent properties, including the ability to effortlessly split adhesive tape. Use the integrated small metal plate located at the head of the tool for best results.

Combines performance with safety.

The SECUMAX COMBI is our best weapon for defeating all types of packaging film. Stretch film, shrink film or wrapping film? Thick or thin? Anything you need to cut. And the concealed blade means it can come neither close to you nor your goods. This is what we call „maximum safety“. Besides from film, you can cut plastic strapping band, leather and with the right blade, even safety belt.

Application

PRODUCT FEATURES

Certificates and awards

Safety technology

Concealed blade – a maximum degree of safety

The SECUMAX COMBI blade is not an open one, but is hidden from people and goods. This provides you with the highest degree of safety from cut injuries and from damage to goods.

THE PERFECT FIT FOR ALL. DOES THE PERFECT JOB.
