

## FEATURES

- **Black double-sided adhesive foam tape**
- **Medium-density PVC foam backed**
- **Sticks well to most surfaces**
- **Fast and easy to use**
- **Effectively reduces sound transmission and seals out dust, water, wind and light**
- **High tack adhesive requires no curing**
- **Easy peel poly liner prevents stretching during installation and permits fast application**
- **Excellent resistance to weather, oxidation and UV**

## RS PRO Black Foam Tape, 12mm x 31m, 3.2mm Thick

RS Stock No.: 205-0962

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

For an easy-to-use and weather-resistant sealing solution, turn to RS PRO's black foam tape. Bonding well to most surfaces, this double-sided adhesive tape is effective at sealing out water and dust, as well as light and wind.

The easy-peel poly liner makes for quick and practical application of the medium density PVC foam tape. This liner stops the tape stretching during fitting. At a thickness of just 3.2 mm and available in a roll of 31 m, this tape is self-adhesive on both sides and offers long-lasting sealing and excellent resistance to weather, ultraviolet light and oxidation. No curing is needed and the sealant is held solidly in place by this high tack adhesive.

## General Specifications

<b>Backing Material</b>	PVC Foam
<b>Colour</b>	Black
<b>Single/Double Sided</b>	Double Sided
<b>Applications</b>	Vibration Damping, HVAC Duct Systems, Glazing Seals, factories and on manufacturing equipment

## Mechanical Specifications

<b>Width</b>	12mm
<b>Thickness</b>	3.2mm
<b>Length</b>	31m
