RS PRO 20cm VGA/SVGA HD15 Male to 2 x Female Cable - Black

Stock number: 195-4277

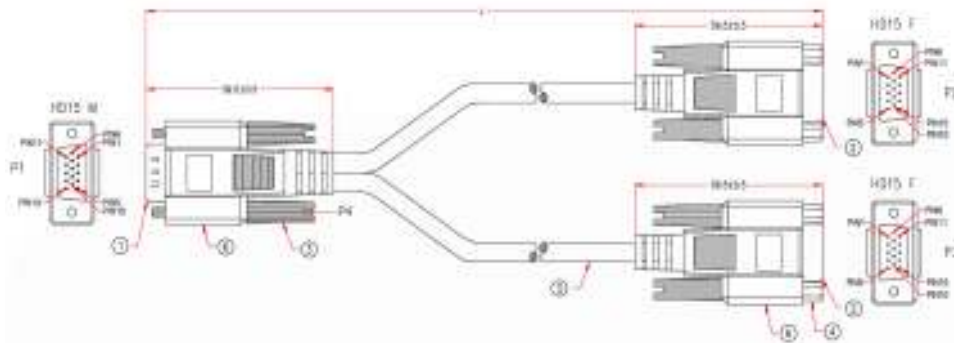

EN

Our RS PRO 20cm monitor splitter cable comes with a high density 15 pin male to two high density 15 pin female connectors which are commonly known as a VGA or SVGA connector. It has all pins connected to support DDC on widescreen monitors.

The jacket and the connector hoods are made of beige PVC.

The female connectors come with attached hex nuts so the that cable can be locked into a male connector, this stops the risk of the connection coming apart and causing connection issues.

The SVGA connector is one of the most common video connectors found on computers. SVGA is an analogue signal which is slowly being replaced by digital cables such as HDMI and DisplayPort.
