I have a M1-8-16 from 2010 and my father-in-law was looking to buy M1A-8-16B. My M1-8-16 is fairly heavy, wondering if the new M1A-8-16B is lighter in weight? and if so, buy how much?

I have a 16ft locking hinge ladder, model M1-8-16 with the straight across bolt on base with rubber ends. I lost one of the rubber ends on the bolt on base, I would like to order a replacement but I don't know what the part number is.

I purchased a folding ladder around 2006. Need a new stabilizer. Stickers are blank. Ladder is 12'; 16" wide. The stabilizer is 32&1/2" long, 2&3/8" tall, 1" thick. The two bolts on the stabilizer are 15" apart. Is the stabilizer SKU 36-69?

Answer this Question

**Customer Care** · a year ago

Please contact Customer Care at 888-523-3371. Do not use the ladder, take it out of service.

Hello. thanks for answering my question. What is the difference between models M8-16 and M1-8-16?

Answer this Question

**Customer Care** · a year ago

M8-16 is an obsolete model and was replaced with model M1-8-16. The changes are confidential and priority and cannot be shared.

**I inherited this ladder, M2-6-12, no letter after it and I can't get the hinges to unlock. How do I do this? I thought they were push buttons, but I can't push them at all. It is currently in two sections, so I need to close the middle hinges.**
