Fibre Optic Stripper

RS Stock number 754-1176

Specification:

- Removes secondary coating from optical fibres
- Also suitable for removing loose tubes up to 3.0mm
- Suitable for removing jackets from other small sized cables
- The blade depth can be adjusted
- Damage to cladding is prevented by inserting guide bushings which ensures a precise location for the fibre throughout the stripping operation
- Supplied with storage case and guide bushes: 0.5, 1.0, 1.5, 2.0, 2.5 and 3.0mm
- Simple setup for operation: fit a pair of guide bushings for the selected tube, fibre or lead and adjust the blade depth
