- **Remote wakeup and power-management support ensure optimum electricity consumption**

- **Supplied with a converter cable, adapter DB9 F-DB25 M and driver CD**

RS PRO USB Serial Cable Adapter

RS Stock No.: 144-8615

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

The RS PRO USB Type-C to serial adapter is a convenient way to control legacy serial components from your laptop, notebook or PC. The adapter supports handshake mode, meaning that exchange protocols are set up between the connected devices before data transfer begins. This enables automatic detection of data transfer speed and ensures data protection.
