

WPB660

High-Density Polyethylene Bulk Refuse Container

Description

Made from environmental friendly recyclable High-Density Polyethylene (HDPE). Able to absorb shocks, resists common chemicals and easy to maintain.

Mounted on 4 solid rubber tyres (include 02 brakes) swivel castor wheels for quiet, smooth, reliable operation. Molded with ergonomic handles, WPB660 is easy and safe to maneuver.

With optional foot-operated lid opener, lifting the lid is no longer hard work. Operators need not touch the lid anymore, while handling foodstuffs or soiled wastes. Closed lid prevents pests such as birds, cats & rodents from accessing the food waste. Thus, keeping bacteria and diseases at bay. Conforming to National Environment Agency (NEA) requirements.

Model	Width (mm)	Depth (mm)	Height (mm)	Capacity (Litres)	Approx Weight (kg)
