

# Metric PTFE 60 ShD O-rings

Polytetrafluoroethylene / Teflon / PTFE

PTFE is a highly resilient O-ring material unaffected by virtually all known acids, alkalis and solvents. It is tough, abrasion resistant and capable of withstanding temperatures between -200°C to +250°C. It also possesses outstanding weather, ozone and electrical resistance. PTFE material has no memory and therefore if compressed it will not return to its original state. If you require a material with extreme temperature, chemical resistance as well as the ability to be compressed, please contact us to discuss material options such as FFKM.

*Colour: White*

*Operating temperature range: -200°C to 250°C*
