RS Pro Blow Gun Nozzle, 6bar

Product Details

Blow/Vacuum Gun

- Air powered clean up guns that can be converted into a vacuum or blow gun by unscrewing the rear of the gun, reversing the venturi unit and screwing the gun back together
- The venturi/vortex action multiplies input and prevents risk of stalling
- Constructed from hard wearing maintenance nylon 6 that is also oil resistant and chemically inert
- 1/4in BSP Inlet
- Max working pressure 6 bar
- Accessories available separately, not supplied with dustbag

ENGLISH
