2nd Jan 2024

Dear Valued Customer,

We are excited to announce the latest addition to our Asia Pacific Tyvek® garment portfolio line, the Tyvek® 500 Xpert. As part of our commitment to meeting industry standards and customer demands, we have decided to transition from Tyvek® 400 TY198S Coverall to Tyvek® 500 Xpert Coverall.

Tyvek® 500 Xpert is a hooded coverall in white, robust yet lightweight (<180g per garment), with 3-piece hood for optimal fit to head and face when turning, elasticated face, wrists, and ankles as well as glued-in waist elastic. It has ample crotch area for freedom of movement and large, easy-to-grasp zipper puller.

What sets the Tyvek® 500 Xpert apart is that it is certified according to Regulation (EU) 2016/425, Cat.III, Type 5-B, 6-B, EN 1073-2, EN 1149-5, and EN 14126:2003 standard (barrier to infective agents), which has become a requirement in more countries post pandemic. Furthermore, the Tyvek® 500 Xpert includes Instructions for Use (IFU) in local languages for your convenience.

We have also made changes to the carton quantity, reducing it from 100EA to 50EA per box. This adjustment aligns more closely with market trends and addresses manual handling guidelines.

We are now accepting orders for the Tyvek® 500 Xpert, and our dedicated team is ready to answer any questions or concerns you may have. Thank you for your ongoing partnership and trust in our products.

Sincerely,

A handwritten signature in blue ink, appearing to read "DL", is placed over a light blue rectangular background.

David Leow
