

RoHS
Compliant

Application

- Instrumentation
- Industrial automation
- Building & Home automation

Features

- Vertical and right angle types
- Miniature size with stainless steel cover
- Low profile (3mm)
- Halogen Free

Specifications

Contact Rating	: 25mA, 24V DC
Contact Resistance	: 100mΩ Max.
Insulation Resistance	: 100MΩ Min. 100V DC
Dielectric Strength	: 250V AC/1 minute
Operating Force	: 200gf cm Max.
Travel	: 2mm
Operating Life	: 10000 cycles
Operating Temperature	: -30°C to +80°C
Storage Temperature	: -40°C to +85°C

Soldering Conditions

Condition for Soldering- MP-R7M series

The condition mentioned above is the temperature on the Cu foil of the PCB surface.

There are cases where board's temperature greatly differs from switch's surface temperature depending on board's material, size, thickness, etc. Care, therefore, should be used not to allow switch's surface temperature to exceed 260°C.

Manual Soldering

Soldering Temperature	Max. 350°C
Continuous Soldering Time	Max. 5 seconds

Rotary Coded Switch
