\*you may select one size up for better comfortability

## Measuring instructions for safety shoes

Use a ruler or measuring tape to measure the “heel to toe” distance for each foot. Determine your own shoes size with the guide from the foot size chart.

The “*heel to toe*” length refers to the longest part of your foot.

\*recommend to select one size up for better comfortability

### SHOES SIZES

EU	UK	USA	FOOT LENGTH	
			cm	inches
37	4	5	22.5	9.3
38	5	6	23	9.4
