

## FEATURES

- M8 hex head set screws
- Length of 20mm
- Solid brass construction for corrosion resistance in wet conditions
- Plain finish
- Hex head and drive

# Plain Brass Hex M8 x 20mm Set Screw

RS Stock No.: 483-2413

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

## Product Description

These handy set screws are perfect for keeping potentially moving parts secured. You might find them locking a gear in place, for example. They're typically used in engineering, product design and repair applications.

These components undergo strict testing to ensure quality and durability as part of the RS PRO range. They also conform to Electrostatic Control Standards ANSI/ESD S20.20:2014 and BS EN 61340-5-1:2007, preventing damage due to electrostatic discharge. The screws have M8 threading through the length of the main body. Finally, they're hex-headed, which means that they can easily be tightened using a standard spanner.

## General Specifications

<b>Thread Size</b>	M8
<b>Material</b>	Brass
<b>Finish</b>	Plain
<b>Screw Type</b>	Set Screw
<b>Head Shape</b>	Hex
<b>Drive Type</b>	Hex
<b>Thread Type</b>	Metric
<b>Corrosion Resistant</b>	Yes
<b>Application</b>	Fasteners and fixings; Machine tooling and repair; Security guarding; Electronic applications; Automotive industry

## Mechanical Specifications

<b>Length</b>	20mm
<b>Specification</b>	DIN 933
<b>Head Height</b>	5.3mm
<b>Width Across Corners</b>	14.38mm
<b>Width Across Flats</b>	13mm

## Approvals

### Compliance/Certifications

ANSI/ESD S20.20:2014 and BS EN 61340-5-1:2007
