

IBC-SS03

S/Steel Stackable Intermediate Bulk Container (IBC)
- for Highly Toxic & Hazardous Wastes.

Wide Inlet

Air-tight/ Leak-proof/ Weather-proof

SPECIFICATIONS

External Dimensions (mm)	1,130 x 1,130 x 1,260
Capacity (Litres)	900
Manhole Diameter (mm)	450
Fork Height (mm)	100
Shell Wall Thickness (mm)	2.28
Outlet Valve	NO
Tare Weight (kg)	190
Max. Mass Weight (kg)	1,810
Stacking in Warehouse	2 High 
Stacking during Transport	1 High 

FEATURES

1. Certificate Approval: UN11A/Y – IMDG
2. Shell Wall Material: SUS304
3. Sealing Material: EPDM
4. Outlet Valve: NO
5. Relief Valve: NO
6. Loading per Intermodal Container:
20units/ 20ft & nested 50units/ 40ft HC.
7. Loading Goods:
Suitable for solid waste, Density ≤ 1.2 of the UN II, III Group.
Suitable for solid hazardous goods, Density ≤ 1.9 of the UN II, III Group
