

FEATURES

- Self-locking fastener
- Good stability under heat
- Chemical resistance are required
- Available in range of sizes and length

RS PRO Natural Nylon Standard Cable Tie, 150mm x 3.6mm

RS Stock No.: 321-0092

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

RS PRO cable ties are a type of fastener used for holding items together, most commonly electrical cables or wires. These cable ties are made from Nylon 66 (also known as nylon 6.6) and are a one-piece, self-locking fastener. This nylon type is frequently used when high mechanical strength, rigidity, good stability under heat and/or chemical resistance are required. Functioning like straps to keep cables tidy, they're available in a range of sizes and lengths. The design of a cable tie includes a head which provides the slot for the tape to be pulled through, to make a loop.

General Specifications

Type	Standard
Colour	Natural
Material	Nylon 66
Minimum Operating Temperature	-50°C
Maximum Operating Temperature	120°C
Fire Behaviour	Flame Retardant
Quantity	100

Mechanical Specifications

Length	150mm
Width	3.6mm
Tensile Strength	176.4N
Maximum Bundle Strength	39mm

Approvals

Standards Met	RoHS Compliant
